

150 ml WHITE AIRLESS "SKY" BOTTLE

DESCRIPTION:

Each unit of bottle is made up by:

White plastic bottle with an internal piston + dosifier pump and top.

Main features:

- Airless bottles are perfect to bottling creams and gels with density.
- With each tap, Airless system produces an empty effect inside the bottle which makes go up the internal piston. In that way, you can make the most of the bottled product.
- This is a no refillable bottle, so once the dosifier pump is assembled, the product inside remains hermetical and totally protected from the air avoiding external contaminations, which at the same time allows a better preservation.

INFORMATION AND MEASUREMENTS:

CODE	NOMINAL CAPACITY	WEIGHT	HEIGHT	DIAMETER	PRINT AREA	CAP	PUMP'S DOSAGE	UNITS PER BOX
0103415001	150 ml	±55,7 gr	±157 mm	±48,2 mm	±45 x 100 mm	Dosifier pump + top	1,5 ml	10 u.
