TECHNICAL DATA FILE WHITE ROLLON BOTTLE 15ml WITH METAL BALL

PHYSICAL AND CHEMICAL PROPERTIES

BOTTLE AND TOP

Polypropylene

Copolymer specially designed to being produced by blow molding. The product is characterized by a good transparence, a good lightness and brightness and also an excellent finish. It counts with a high deformation resistance at higher temperatures.

Complies with the applicable regulations throughout materials which can be in contact with food and the regulations about the heavy metal content and the phthalates concentration.

White pigment

Good color distribution on the final product. Maximum dispersibility and solidity.

Complies with the applicable regulations throughout materials which can be in contact with food and the regulations about the heavy metal content and the presence of diarylides.

ROLL-ON TAP

LDPE Base.

Stainless steel ball with a high corrosion resistance, also suitable to being used in medical and alimentary applications.

All the materials fulfils with the standards established by the FDA, BGW, BGA, DM. 21/03/73, CONEG, EC 90/128, EC 2002/72

According the 3rt article from the European Regulation 1935/2004, the final user of the product must determinate if the product is technically adequate for its planed use and the safe use of this one.

ROSER HUARTE PRATS
