

10 ml "CONDAL" TUBE IN WHITE

PHYSICAL AND CHEMICAL PROPERTIES:

TUBE:

LDPE (Low-density polyethylene)

Prepared to be used with the standard blow molding techniques using melt temperatures between 170°C and 230°.

Easily processable and with a good rigidity.

Can be recycled.

It fulfills the 177.1520 FDA regulation and the most part of European regulations for materials which can be in contact with food.

White pigment

With a cylindrical and granulated form which allows an exact dosage and a good color distribution in its final form. Maximum dispersibility and solidity. Environmentally friendly for being exempt of Cd, heavy metals and diarylides. Suitable for being in contact with food.

CAP:

PP (Polypropylene)

APPLIER:

LDPE (Low-density polyethylene)

All the materials fulfils with the standards established by the FDA, BGW, BGA, DM. 21/03/73, CONEG, EC 90/128, EC 2002/72.

According the 3rt article from the European Regulation 1935/2004, the final user of the product must determinate if the product is technically adequate for its planed use and the safe use of this one.
